No. 144 TREMONT STREET, BOSTON,

Opposite the Common.

CHILSON'S IMPROVED CONE FURNACE

Patented in the United States, England, and France.

Ten Sizes for Brick and Portable Casings.

A GOLD MEDAL was awarded to this celebrated Furnace, at a recent Fair of the Massachusetts Charitable Mechanics' Association, and the ONLY GOLD medal ever awarded any Furnace by this Association. It has also received another GOLD MEDAL (first premium), at the Middlesex Mechanics' Exhibition, at Lowell, 1867.

This justly celebrated Furnace, now in such extensive use throughout the country, is now in much greater demand than ever, since the recent improvements have been added. Once

seen it must convince everyone that it is the most PERFECT plan for WARMING buildings in this country. Its wonderful heating power, and great economy in FUEL have been more fully developed the past two years during the high price of fuel than ever before—it having proved in many cases a saving of from forty to fifty per cent over other Furnaces.

Thousands of commendations and references have been received from

**Churches, Schools,
Hospitals,
Asylums, and
Public and Private
Buildings**

of all kinds, which may be seen on application;

MORE THAN

20,000

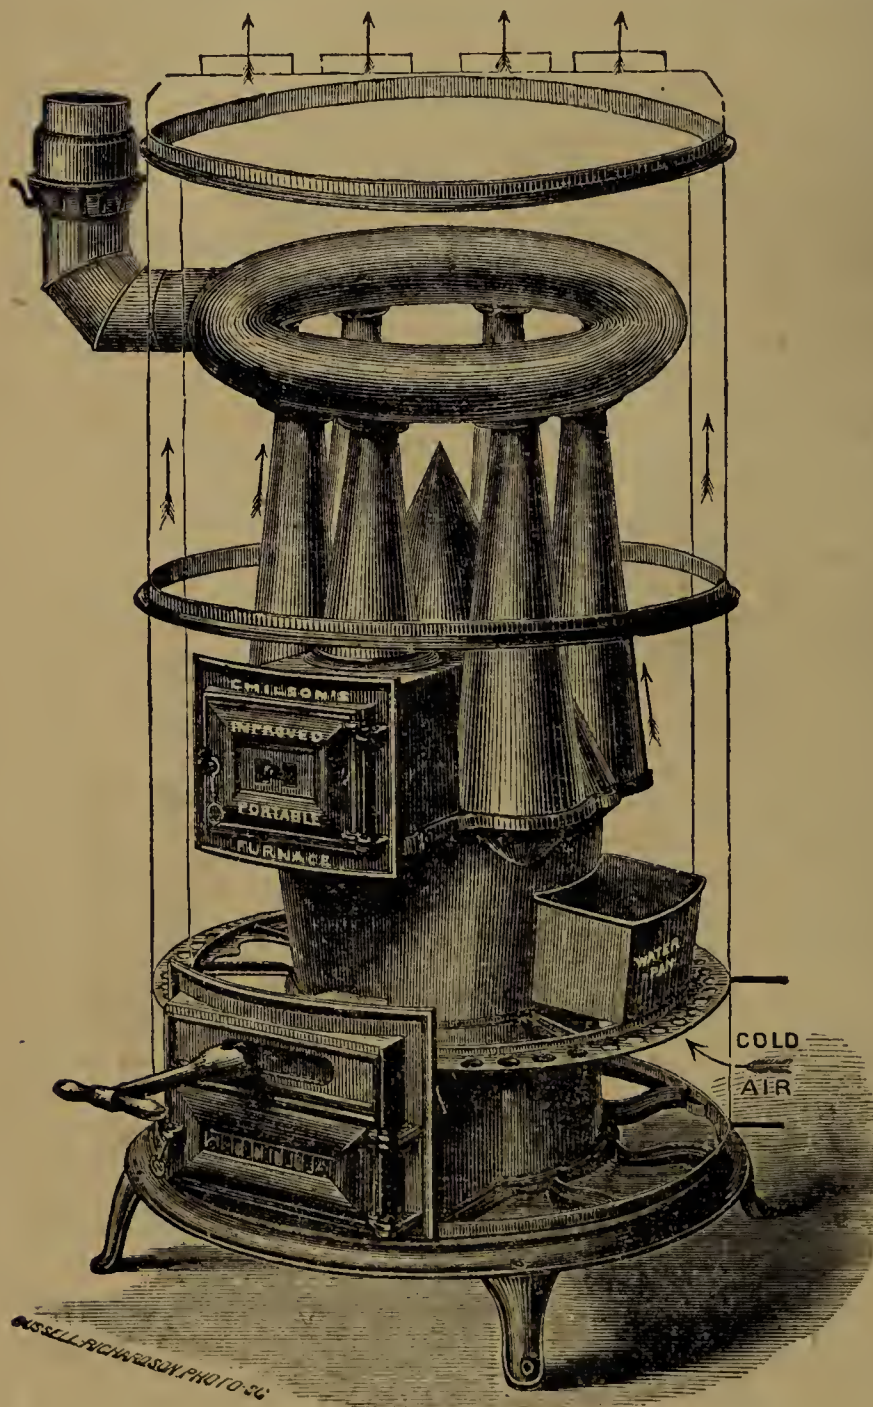

OF THE

CHILSON FURNACES

having been sold in the New England, Middle, Southern, Western, And Pacific States, Canada, New Brunswick, Nova Scotia, and Europe.

Special attention given to the erection of Furnaces and Ranges, and the Ventilation of Buildings in any part of the country.

For Sale by
the Manufacturer,
Wholesale and Retail.

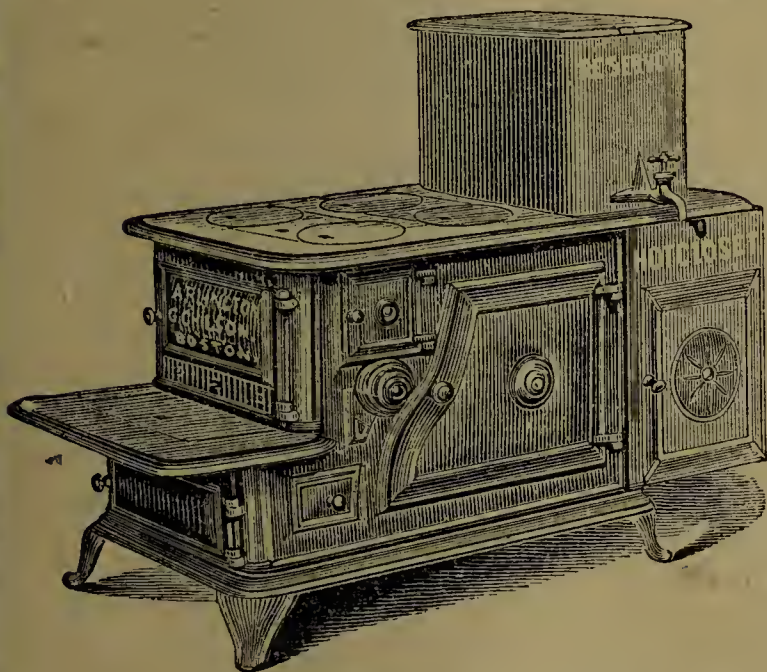

Warerooms, 99 & 101 Blackstone St. Boston,

OR AT FOUNDRY AT MANSFIELD, MASS.

GARDNER CHILSON.

THE ARLINGTON COOKING STOVE.

CHILSON'S NEW STOVE—JUST COMPLETED.

Five minutes examination of this Stove will prove it to be the CHEAPEST, NEATEST, MOST CONVENIENT, and DURABLE, and in EVERY RESPECT the BEST Cooking Stove ever made. WITHOUT EXCEPTION, the WATER FRONT FIXTURES for heating water, for BATH BOILERS, &c., are the MOST PERFECT EVER INVENTED. DO NOT FAIL to examine this Stove before purchasing elsewhere.

A VARIETY OF SIZES, WITH or WITHOUT Extension Tops, Reservoirs, Hot Closets, &c. &c., for HARD OR SOFT COAL, OR WOOD, kept constantly on hand.

CHILSON'S PATENT Elevated, Double-Oven COOKING RANGE HAS BEEN REMODELLED AND GREATLY IMPROVED.

This Celebrated Range is universally acknowledged to be the most complete and perfect Kitchen Range in America,

No housekeeper, who would enjoy the comforts of a really perfect Kitchen Range should fail to examine this before purchasing. Sizes adapted for dwellings, hotels, &c, with or without water-backs, hot closets, and hot-air fixtures for heating additional rooms.

It excels all others—

1st — In its entirely new principle for circulating the heat around either oven separately, or both ovens, as desired.

2d — In its heavy fine castings and thorough workmanship.

3d — In its GREAT ECONOMY OF FUEL.

6th — In its quick and even baking ovens.

5th — In its self-regulating fines, without the usual complication of dampers: and finally, in its general beauty of design, durability, &c.

ALSO,

Parlor, Office, and Store Stoves, Patent Dampers, Registers, Ventilators, &c.

Warerooms, 99 and 191 Blackstone St., Boston.

Foundry at Mansfield, Mass.

Piano that we sell for \$1.00 per day for one year, being an elegantly carved rosewood case, Seven Octave, Over Strung, Full Size Piano with improved Harp.You can find great advantages in selecting Pianos, Organs or Melodeons from **PALACE OF MUSIC**, as we have instruments from all the principal makers in New England, which we are selling at wholesale prices, being 25 per cent less than at retail. Pianos and Organs to let. Great variety of Stools and Covers.

Have you seen the Eureka Grand Organ, that we sell by paying 50 cents per day for one year, with six stops, two sets of reeds, got up in the form of an elegant sideboard? Be sure and call and examine this Organ before buying.

We have the exclusive agency for the celebrated Steuway Scale Grand Square Piano, 7 1-2 octave, for power, sweetness, and quality of tone, surpasses any Piano in this market. These Pianos are manufactured by The Palace of Music Grand Square Piano Co.

GEO. W. NORRIS, Pres.**No. 1 Pemberton Sq.****OPP SCOLLAY'S BUILDING, BOSTON.**

P R E F A C E .

THE second number of this Directory has been compiled with great care and expense. Every citizen and business man has been called on for information. All favors are gratefully acknowledged.

When I canvassed for the former number of this work, three years ago, I found all the patrons ready to subscribe, and all but two fulfilled their agreements with me.

Many changes are reported in this volume, that have occurred since the last issue. These may be briefly stated as follows :

Names changed since last Directory	3,050
Names in Directory of 1868-9	3,100
Names in Directory of 1870-1	4,100
Increase from 1869 to 1871	1,000

Plans and Specifications furnished to order. Building and Jobbing, in all their branches, attended to promptly, All work executed in the best manner.

HISTORICAL SKETCH

OF

BROOKLINE.

IN the year 1848, while gathering local historical information for my first publication, I visited Brookline to collect facts about the Sewall family.

Some one there advised me to call upon Rev. John Pierce, D. D., who was familiar with such matters. The venerable gentleman was at home, and gave me a pleasant greeting. I still have a vivid recollection of his bland and cordial manners. His white flowing locks, were, to my young mind, indicative of lore, and of sage experience. He reminded me of what he had written and published about the town, and put me in the way of obtaining some of his historical collections. Ever since that time, I have had the acquaintance of his nephew, the learned antiquary, William B. Trask, Esq., who now kindly furnishes me with other historical discourses, preached and published by the Reverend Dr. Pierce during his long residence in Brookline, viz.

A discourse delivered at Brookline, November 24, 1705, the day which completed a century from the incorporation of the town.

A discourse delivered November 9, 1817, the Lord's day after the completion of a century from the gathering of the church in Brookline.

Reminiscences of forty years, delivered March 19, 1837, the Lord's day after the completion of forty years from his settlement in the ministry.

Address at the opening of the Town Hall, in Brookline, on Tuesday, Oct. 14, 1845.

A discourse delivered in Brookline, at the request of its inhabitants, March 15, 1847, the day which completed half a century from his ordination.

From these writings I draw most of the following facts:—
The name of Brookline came, as the late Rev. Samuel Sewall

(great grandson of Judge Samuel Sewall) conjectures, from one of the farms within its bounds, namely, the Gates' farm, hired of Judge Sewall, which was probably called Brookline because Smelt-brook, running through it, formed the line between that and one of the neighboring farms, and this brook also separated that farm from Cambridge. Judge Sewall, in his journal, often mentions the name "Brookline" before the town was incorporated. Rev. Mr. S. also thinks it was Judge Sewall that suggested that name for the town.

In the former numbers of this Directiory, Mr. Kingman has sketched many events which I shall endeavor to avoid repeating.

In 1633 the inhabitants of Boston took up farms here, where were then "good ground, large timber, marsh-land and meadow." Here they kept their cattle in summer, while corn was growing at Boston.

In 1639 five hundred acres were laid out for common pasturage for the inhabitants here and at Boston. This was before any allotments had been made. The inhabitants, after adjusting the boundaries between this town and Cambridge, which was done in 1740, remained in quiet connection with Boston till 1686. They then set up a free school, and provided an able reading and writing master. They also obtained leave from the General Court to manage their own affairs on condition that they should support their own expenses. They attended religious meetings at Roxbury, and enjoyed a right to a fifth part of the meeting-house there, on condition of their paying a fifth part of the charges for repairing the same. At length, being used to living alone, they came to the conclusion, in 1701, that their town ought to be a district or hamlet separate from the parent town.

This desire was not granted by Boston, and they petitioned the Governor, Council and Assembly, in 1704, that they might be allowed to be a "separate village." Boston remonstrated, and their petition was rejected. But in 1705 another petition was presented, signed by thirty-two freeholders, and was granted, and Brookline became an incorporated town 13 Nov. O. S. 1705.

By this act of incorporation they were enjoined "to build a meeting-house, and to obtain an able orthodox minister, according to the direction of the law, to be settled among them

"Within the space of three years." However, they were not able to comply with this last injunction. Their first representative was sent to the General Court in 1709.

The first meeting-house was raised in 1714. The church was organized 26 Oct. 1717. The Rev. James Allen, a native of Roxbury, was the first minister, being ordained 5 Nov. 1718. He died 18 Feb. 1747.

The next minister was Rev. Cotton Brown, ordained 25 Oct. 1748, died 13 April, 1751. The third was Rev. Nath'l Potter, ordained 19 Nov. 1755, dismissed 17 June, 1759.

Next came Rev. Joseph Jackson, ordained 9 April, 1760. He graduated at Harvard College, 1753, and was sometime a tutor there. This gentleman, who was the immediate predecessor of Rev. Dr. Pierce, died 22 July, 1796. Dr. P. says he was a "burning and shining light."

Dr. Pierce was ordained 15 March, 1797. Rev. T. M. Harris, of Dorchester, preached the discourse, which was published. "At this time," Nov. 1805, says Dr. P., "this town can number eighty-eight families, fifty-five of which are freeholders, and seventy-nine constant residents."

In his "Centennial Discourse," delivered in 1817, Dr. P. says there were thirty-nine members originally composing the church, seventeen males and twenty-two females. "In some instances there have been members of this church for four and five generations in succession." . . . "There are children of the seventh generation from one of the members."

In 1740 there were sixty-one houses in Brookline, and in 1796 there were seventy-two.

In 1817 there were ninety-seven houses. Only twelve of the occupants of the sixty-one houses of 1740 were lineal descendants of the original occupants of the former date. Dr. P. says that up to his time all the ministers of the church here had been liberally educated and received the degree of A. M.

In his Discourse, preached 15 March, 1847, Dr. Pierce says the total number of deaths in the town during the fifty years of his pastorate, had been 573; that is, 279 males and 294 females, of which number 200 died at ten and under and seventy-four lived to the age of seventy and upwards. Nearly a fourth part, namely, 130, died of consumption.

When he came, there were seventy-two houses and seventy-

two families, containing sixty-five voters. Of these sixty-five only three were then (1847) living, and but two persons were living that owned real estate when he came.

Until the year 1793, this town belonged to Suffolk county, but since then it has constituted a part of Norfolk. By the survey of Jonathan Kingsbury, of Needham, it contained 4416 acres, but alterations were made in its boundary lines, and in 1844 Elijah F. Woodward, of Newton, surveyed it, and found it to contain 4695 acres. The population has been as follows:

In 1800	605 inhabitants.
1810	784 "
1820	900 "
1830	1040 "
1840	1265 "
1844	1682 "
1855	3740 "
1860	5164 "
1865	5262 "
1870	6651 "

At about the beginning of the present century wealthy men began to come and erect elegant houses, and the old farms had to give place to splendid gardens and villas.

The good Dr. Pierce, in his "Town Hall Discourse," delivered 1845, after beautifully describing the progress of Brookline in respect to worldly comforts, sympathizing with the remark of one who declared it "a paradise," concludes with these suggestive words: "You will permit me, my friends to express the honest, the joyful conviction, that the most prevalent, the most available cause of your growing prosperity, is, under God, the almost entire, and, it is hoped, that there will soon be, the total disuse, of ardent spirits among you."

In 1845 the largest manufacturing business done here was tanning hides, which amounted in value to \$17,300. Wagons and sleighs were made to the value of \$4,000, and Ladies' yarn hose to the value of 1,200. The hay crop was valued at \$25,046. In 1865 some of the statistics of the census were as follows:

Buildings erected . . .	\$44,000
Leather tanned and curried .	67,600
Milk sold	6,695
Value of pears	23,046
Beef dressed	46,875

Some of the most distinguished men that have ever belonged in Brookline are the following:

Judge Samuel Sewall, died 1730.

Rev. James Allen, A. M., died 1747.

Rev. Elhanan Winchester, died 1797.

Hon. Stephen Higginson, died 1828.

Dr. Zabdiel Boylston, F. R. S., died 1766.

Hon. George Cabot, died 1823.

Hon. Jonathan Mason, died 1831.

Dr. William Aspinwall, died 1823.

Rev. John Pierce, D. D., died 1849.

John Goddard, died 1816.

Gen. Theodore Lyman.

“Judge Sewall’s father, Henry, died 16 May, 1700, aged 86. The Judge prepared the following epitaph to his memory, in the burying-yard of the first parish in Newbury.

“ ‘ Henry Sewall, sent by his father, Henry Sewall, in the ship Elizabeth and Dorcas, arrived at Boston, 1634, wintered at Ipswich, helped begin this plantation 1635, furnishing English servants, neat cattle, and provisions. Married Mrs. Jane Dummer 25 March, 1646, and died 16 May, 1700, aged 86. His fruitful vine, being thus disjointed, fell to the ground the January following.’ ”

“Judge Samuel Sewall, of H. U. 1671, was Fellow of Harvard University a number of years, and one of its benefactors. He went to England, in 1688, the year of the glorious Revolution. He was one of the first Counsellors, after the charter of William and Mary. In 1692 he was made Judge of the Superior Court; and, in 1718, Chief Justice. He resigned his seat upon the Bench, 1728, as well as his office as Judge of Probate, and died January, 1730, aged 77.

Dr. Boylston, after receiving a good private education, studied physic with Dr. Cutler, an eminent physician and surgeon in Boston; and, in process of time, arrived at great distinction in his profession.

In 1721, the small pox prevailed in Boston. Having received information, in a letter from Dr. Cotton Mather, of the manner in which inoculation was practiced in Turkey, he boldly resolved, notwithstanding the inveterate prejudices of his countrymen against it, to commence the practice himself.

He first inoculated his own children and servants. Encouraged by the result of this experiment, in 1721 and 1722 he inoculated two hundred and forty-seven persons in Boston and the neighboring towns. Thirty-nine were inoculated by others, in the whole two hundred and eighty-six, of whom only six died.

Notwithstanding this wonderful success, the populace, headed and inflamed by some of his own profession (the most virulent of these opponents being Dr. Thomas, from Scotland, who betrayed the most ferocious passions, both in conversation and from the press, in a malignant opposition to his more successful competitor), were so exasperated as to render it unsafe for him to travel in the evening. They argued that he ought to be viewed and treated as the murderer of those who should die in consequence of inoculation. To such madness did their passions transport them, that a lighted grenado was, one evening, thrown into the chamber of a young man who had been inoculated. He must inevitably have lost his life had not the fuse been removed by passing through the window.

Had Dr. Boylston gone, at this time, to England, he might have accumulated a large fortune by his skill in treating the small pox. He did not, however, visit that country till 1725, when inoculation had become common. He was then received with the most flattering attention. Chosen a member of the Royal Society, he became acquainted with some of the most distinguished characters in the nation. His communications to that Society, after his return to America, were ingenious and celebrated.

After a long period of eminence in his profession, he retired to his patrimonial estate, in Brookline, to pass the remainder of his days. He there expired, on 1 March, 1766, and was interred in his own tomb, which bears the following plain, though appropriate and just inscription :

“Sacred to the memory of Dr. Zabdiel Boylston, Esq., Physician, and F. R. S., who first introduced the practice of inoculation into America. Through a life of extensive beneficence, he was always faithful to his word, just in his dealings,

affable in his manners ; and, after a long sickness, in which he was exemplary for his patience and resignation to his Maker, he quitted this mortal life in a just expectation of a happy immortality, 1 March, 1766, ætat. 87."

The wish has often been expressed that a more suitable monument might be raised to the memory of a man so highly distinguished in his profession.

Mr. John Goddard, born in Brookline, 28 May, O. S. 1730, died 13 April, 1816, aged 86, a man of uncommonly extensive observation, and with a memory proverbially accurate. He had peculiar facilities for learning many facts relating to this little town, for he was not only a native, but spent a large portion of a long life in the place of his nativity. He was, moreover, for many years, Selectman, Assessor, and Representative of this town to the General Court. He was son of John Goddard, grandson of Joseph Goddard, one of the founders of the first Congregational church in Brookline ; also, father of Joseph Goddard, born 15 April, 1761, and grandfather of Abijah Warren Goddard. These five generations of men all cultivated the same farm, and were members in full communion of the First Congregational church.

Rev. James Allen, the first minister of Brookline, died 18 February, 1747, aged fifty-six. The house which he inhabited has been down for more than half a century, but descendants of the rose bushes, which he set out about 1718, are now living and flourishing. He was brother of the Hon. Peter C. Brooks' mother, and of the last wife of Daniel Dana.

Elhanan Winchester, Jr., son of Deacon Elhanan, was born in Brookline in 1751, and baptized, in his infancy, by Mr. Jonathan Hyde, Separist and Pedobaptist. In process of time Mr. Winchester was converted to the Baptist faith, was highly celebrated in preaching his doctrines, and admitted numbers into the church by immersion. On visiting England, he embraced the doctrine of the final restoration of all men, preached it there and in his own country with considerable success, published a number of volumes defending his sentiments, both in Europe and America. He died at Hartford, Conn., where, in the North burial ground, there is a monument with this inscription :

"The General Convention of Universalist Churches, in memory of their departed brother, the Rev. Elhanan Win-

chester, erected this monumental stone. He died 18 April 1797, *Æt.* 46.

'Twas thine to preach with animating zeal,
The glories of the Restitution morn,
When 'sin, death, hell, the power of Christ shall feel,
And light, life, immortality be born."

Dr. Pierce was born at Dorchester, Mass., 14 July, 1773, son of a farmer, graduated H. U. 1793, died at Brookline, 24 Aug. 1849, aged 76. He was the pastor of Brookline from 1797 to his death, 52 years. In looking over a sketch of his life, by his daughter, Mrs. Pope, I notice facts which many can witness to. She says, "to the last he continued to feel an interest in the current events of the day. Loving friends brought him every luxury that wealth could purchase; they covered his study table with rarest and most beautiful flowers, and never had he seemed to prize them so highly." His son-in-law, Mr. Hedge, writes as follows: "The trait which I recall with the greatest vividness when I revert to my acquaintance with Dr. Pierce, is his uniform cheerfulness." He was very industrious. Had he not been an early riser, it would have been impossible for him to have accomplished what he did, so great was the demand upon his time from those who sought his society. His liberality and hospitality were very great. He had a remarkable indifference to money. In regard to his religious belief, he said he chose what was best from all creeds. His doctrine was "eclectic."

Among the past inhabitants of this town, who should be mentioned with distinction and respect, is the late Dr. William Aspinwall, M. D., of H. U. 1664, who spent a long life as a distinguished physician of this town and vicinity, who was successively Representative, Senator, and Councillor, under the Government of this Commonwealth; who watched over the interests of his native village with vigilance and fidelity; and who, in the times that tried men's souls, amid the political contests which raged in our land, was greatly instrumental in preserving this people from those disgraceful abuses which prevailed in too many other places. In treating the small pox, that dangerous and destructive malady, few, if any, cotemporaries had more extensive practice or were more successful.

"Not only," says Dr. Pierce, in his "Town Hall Address," "have natives of our town done worthily in their day and

generation, but distinguished men from other places have been attracted by our beautiful village to seek a residence here. Among those, high in office in the government of the country, were the Hon. Stephen Higginson, member of the Legislature under the old confederation; the Hon. George Cabot, a Senator of the United States under the administration of Washington; and the Hon. Jonathan Mason, also a Senator to Congress, whose place of residence has been succeeded by a mansion erected by General Theodore Lyman, which, for taste and elegance, may vie with the palaces of Europe.

Since 1867 the valuation of Real and Personal property in this town has been over \$10,000,000.

According to the Town Clerk's report, the valuation of personal estate for the year 1869 was	\$9,366,500
and of real estate	6,947,200
Total	\$16,213,700

The highest taxes are the following :

Wm. F. Weld	\$7,347
Mrs. N. I. Bowditch	7,088
Mrs. Robert C. Winthrop	4,202
Wm. Dwight	4,162
Ignatius Sargent	2,969
Amos A. Lawrence	2,140
David Sears	2,105

NICHOLAS M. WILLIAMS,
Catholic Bookseller & Stationer,
1203 Washington Street,
(Opposite New Cathedral.)
B O S T O N, M A S S.

Keeps on hand the best editions of Bibles, Prayer-Books, Testaments, and Standard Catholic Works published in Europe and America, and receives all new publications as soon as they are issued.

As Mr. Williams publishes no books, he has no interest in forcing the sale of inferior editions, but always furnishes the best books at the lowest publishers' rates.

All books sent post-paid upon receipt of the advertised price.

Subscriptions received for the *Catholic World*, *Tablet*, *Pilot*, *Freeman's Journal*, *Young Crusader*, *Young Catholic*, and other Catholic Papers and Magazines.

The usual discount given to the Trade, to Clergymen, and those who buy for Libraries or for gratuitous distribution.

Crucifixes, Rosaries, Pictures, and other religious articles sold at the lowest prices, wholesale and retail.

Full assortment of Stationery and Blank Books, constantly on hand.

SAFES.

The Best in the World.

DARING ATTEMPT OF BURGLARS.

713 Broadway, New York, Jan. 4, 1871.

AMERICAN STEAM SAFE COMPANY.

Gentlemen:—The *Fire and Burglar-Proof Safe* which we purchased of you one year ago, sustained a *severe trial* at the hands of burglars on the night of the 1st inst. The evidences of the *great skill* and *superior talent* on the part of the thieves is fully shown in the finely-wrought tools left behind them, as also by the method pursued in their efforts to relieve us of our valuables. The outer or Fire-Proof Safe was badly mutilated, showing the effect of cutters, jimmies, wedges, etc., but the inner Burglar-Proof Chest of Welded Steel and Iron, secured by Sargent's Bank Lock, proved to be superior to their skill and tools, fully vindicating your claims as to its *burglar-proof capacity*. We can but rejoice over the failure of the "cracksmen" and we cheerfully give this testimony concerning the character of your work.

Yours truly,

E. P. DUTTON & CO.

ANOTHER TEST BY BURGLARS.

Lancaster National Bank,

Lancaster, Mass. Oct. 15, 1869.

AMERICAN STEAM SAFE COMPANY.

Gentlemen:—Our Bank Building was entered by burglars last night and some damage was done; but I am happy to state that the massive "Welded Steel and Iron" Door and "Sargent" Lock which you recently furnished us prevented the burglars entering the vault. The excellence of this work left no chance for the robbers to cut, wedge, pry or blow open the door or get through the lock, and doubtless saved us from a heavy loss. We are very thankful this morning that we added this New Door to our security, and are confident that with the Inner Door and strong Burglar-Proof Safe inside the vault it will continue to afford us all needed protection against burglars.

Very respectfully yours,

JACOB FISHER, President.

ANOTHER TRIUMPH FOR THE STEAM SAFE.

AMERICAN STEAM SAFE COMPANY,
300 Broadway, New York:

New York, Nov. 24, 1870.

Gentlemen,—The No. 0 Double-door Steam Safe, purchased of you in November, 1868, was exposed to the severe fire in the building No. 61 Broadway, on the 20th of this month, and fully sustained the reputation it has made as the *best fire proof Safe in the world*. In addition to the peculiar protection afforded by your system of steam tubes, the benefits arising from the "cut off" or detachment of metals in the frames and jambs around the door, by which heat is prevented from entering by continuance of metal, were finely illustrated. I am fully persuaded that the Safes of your manufacture ARE IN ALL RESPECTS WORTHY THE CONFIDENCE OF BUSINESS MEN.

F. B. SPINOLA.

AGAIN TRIUMPHANT.

NASHUA, N. H. April 22, 1870.

AMERICAN STEAM SAFE COMPANY:

Gentlemen,—The Steam Safe you sold us passed triumphantly through the great fire here on the 16th inst. In one of the largest buildings burned it was severely exposed till the floor gave way, when it fell into the cellar amidst burning timber, oils, varnish, rosin, and other combustible material, and remained in the most intense heat for hours. When opened its contents were in perfect condition, showing no effects of the fire whatever. The caps melted off the sealed water vessels, as designed, letting the steam around the book-case, thus keeping out the heat; and though the Safe overturned in falling, the water was not spilled, and only a part of it was evaporated, showing a reserved power that would have withstood the exposure much longer. The Safe proved itself in the fire what you represented it to be, operating to our entire satisfaction, and to the surprise and gratification of those who saw it opened. You will please send us another like it, and oblige,

Truly, Yours,

BARR & CO.

W. H. CARPENTER, M. D.

LATE OF MAINE,

Has located permanently for Practice, at

No. 147 TREMONT STREET, COR. WEST STREET.

Where he can be consulted daily, from 10 to 4, upon

CATARRH,

AND ALL DISEASES OF THE

Eye, Ear, Throat, and Lungs.

Office Hours from 10 to 4.

SPECIAL NOTICE.

Previous to locating in Boston, DR. C. for five years (with the exception of a few weeks' practice in Salem), confined his practice to a few of the leading cities of Maine; but many and earnest solicitations from sufferers in Massachusetts and neighboring States, have induced him to locate in Boston, which is so situated as to be accessible from any portion of New England. The references below are *genuine* and received *not* from a distance, but from where they can be easily investigated, by writing or otherwise, as the names and addresses are given in full. Hundreds of others can be seen at Dr. C.'s Consulting Rooms, 147 Tremont Street. Residence, 15 Rollins Street.

Testimonial of Thomas Prince, Esq. of Boston.

BOSTON, Dec. 7, 1870.

W. H. CARPENTER, M. D.:—My Dear Sir: I write this to acknowledge your skill and kindness in treating my son for Otorrhea or Discharge and ulcerated condition of the ear, resulting from scarlet fever, which had become chronic and failed to yield to treatment until it came under your care, when after about three months it was restored to health. I shall not fail to recommend others similarly afflicted to apply to you. You are at liberty to publish this if it will be of service to you.

Very Respectfully yours,

THOMAS PRINCE.

No. 2 Rollins street.

Testimonial of Capt. Pousland of Salem.

SALEM, Jan. 5, 1870.

It affords me great satisfaction to testify to the success of Dr. Carpenter in the treatment of Catarrh, and to inform all sufferers from that terrible disease there is hope for them.

I was attacked with Chronic Catarrh thirty years ago, and it increased until it pervaded my whole system. I became very deaf—my eyes were weak and inflamed, and discharged water so frequently that I was unable to read without a handkerchief in my hand to constantly wipe the tears away. My throat was full of matter mornings, and required an hour's exertion of hawking and expectorating to clear it; my nostrils were clogged with mucus, which would frequently become dry, very annoying and difficult to remove while my head was dull and disagreeable.

Dr. C.'s remedies have cured my Catarrh, and improved my hearing so I can hear my watch tick. My throat is clear mornings; the discharges from my nose are moist and natural; the disagreeable sensations have left my head and I now read an hour without wiping my eyes, they feel quite natural and well.

WM. POUSLAND.

102 Lafayette Street, Salem.

Testimonial of C. G. Frye, Esq., of Waltham.

WALTHAM, Dec. 8, 1870.

DR. CARPENTER:—My Dear Sir: Your treatment for catarrhal deafness proved perfectly satisfactory. My hearing is as good now as it ever was, and the disagreeable pains in my head and other annoyances that used to trouble me are gone. Hoping you may enjoy future success, I am very truly yours,

CHAS. G. FRYE.

From the Augusta Gospel Banner, of Feb. 16, 1867.

Persons troubled with blindness, deafness, or catarrh, will do well to consult Dr. Carpenter. We know him personally. He is a gentleman; is well read in his profession, is no humbug or deceiver; will not, as many do, tell the patient he can effect a cure without reasonable grounds for his declaration. He wrought several cures in this vicinity and essentially helped others who had suffered for years. This is written by the editor of the "Banner," without solicitation from any one.

[SEE OVER.]

**Testimonial of Hon. Z. Collins,
Union, Maine.**

DR. CARPENTER—Dear Sir: Learning you are in Boston, I write for the purpose of informing you that the hearing of my son, Leroy Z. Collins, remains perfectly good. You will remember that in March, 1865, you relieved him of deafness of fifteen years' standing which had increased to that extent that he was obliged to leave his studies and went to a trade. He has resumed his studies, which, without your assistance, he never could have done. May you live long, prosper in your profession, and especially cause the deaf to hear, is the desire of

Yours, very gratefully, **Z. COLLINS.**
Union, March, 1870.

Testimonial of Mrs. K. Stowell, Passadumkeag, Me.

(From the Bangor Whig.)

DR. CARPENTER—Dear Sir—With great pleasure I wish to inform you that the course of treatment that you prescribed for me at the Bangor House, in December, 1865, perfectly and permanently cured my eyes. I had suffered terribly with scrofulous Sore Eyes ten years, and in defiance to Physicians' remedies they grew worse. Every spring and fall I was confined to a dark room, suffering excruciating pain from exposure to light. I always think of you with gratitude for the great cure you performed in restoring to me my eyesight.

Yours with sincere thanks,

MRS. K. STOWELL.
Passadumkeag, Me., July 7, 1870.

**Certificate of Mr. W. C. Cartledge, Jr.
of Portsmouth, N. H.**

(From the Portsmouth Journal)

My ears have been diseased thirty-four years, and I had become so deaf as to be unable to hear unless addressed very loudly close to my ears. I have been doctored by physicians of Europe, Boston, Philadelphia, and other cities, who all promised to cure me, but did not benefit me in the least, and I despaired of help, as physicians in this city pronounced my case a hopeless one; but reading in my paper of Dr. Carpenter's wonderful cures in Maine, the State of his residence, after writing and visiting Maine, and ascertaining that his cures were genuine, and that he was a skilful and reliable physician, I was induced to place myself under his treatment. I have recovered my hearing so I can hear distinctly when addressed but little above the ordinary tone of voice, and am still improving. I would advise all persons affected with diseases of the head to consult Dr. Carpenter, and obtain relief. I shall be pleased to converse with any person interested at my residence on Morning Street.

WILLIAM CARTLEDGE, JR.
Portsmouth, March 5, 1870.

**Testimonial of David Bugbee, Esq.
of Bangor.**

[From the Bangor Whig.]

BANGOR, Feb. 18, 1870.

Being severely afflicted with Chronic Catarrh, I applied to Dr. Carpenter, at the Bangor House, in March, 1868, and in justice to Dr. C., and that others may be benefited, I would inform those interested that a course of his treatment cured me of the complaint. No amount of money would induce me to remain in the condition I was in when I consulted the Doctor.

D. BUGBEE,
No. 5 Kenduskeag Bridge.

REFERENCES.

DR. C. is kindly permitted to refer to the following persons, who have been his patients:

Mrs. John Gould, Topsfield, deafness, 1869.

MR. W. N. SOULE, formerly of East Boston, where he is well known, but now a resident of Augusta, Maine, was afflicted with Catarrh of 20 years' standing, which had been pronounced consumption by some physicians. He was cured in 1865, and remains a healthy man.

Rufus Smith, Esq., Newburyport, Mass., 65 years of age, cured of Deafness of 20 years' standing in 1869. Was very deaf indeed. Now hears well,

Mrs. Mary E. Wyer, Middle Street, Portland, Me.; was totally blind, and given up by six eminent physicians. Was cured by Dr. C. in 1866, and has been able to read and sew ever since.

W. F. Morrell, Esq., cor. Congress and Exchange Streets, Portland, Me. Cured of discharge of the ears of 32 years' standing, in 1865; *remains well,*

Mr. J. R. Mansfield, No. 11 Nursery Street, Salem. Mr. M. is upon the night police, and was about to relinquish his situation on account of Catarrhal Deafness. Dr. C.'s remedies cured him in 1869, and he retains his situation.

Mr. Daniel W. Palmer, No. 12 Paris Street, East Boston. Patient now under treatment for Chronic Catarrh, which had begun to effect his hearing.

Mr. John Pindar, an old and well-known citizen of Ipswich, Mass. Cured of Catarrhal Deafness in 1869.

Mr. B. F. Dennis, late of Salem, now of Lynn, Mass. A well-known tuner of Pianofortes, whose son Dr. C. cured of a dangerous and disagreeable disease of the head in 1864. Remains well.

Mr. D. H. Shaban, No. 235 Essex Street, Salem, Mass.; cured in 1869 of Chronic Catarrh and Inflamed Eyes of many years' standing.

Zephaniah Poph, Esq., of Danvers, was cured of increasing deafness in August, 1869. Hears well as ever.

Wm. H. Walsh, of Topsfield, Mass, cured of chronic catarrh in 1869.

DR. C. will, upon application, forward free to any address, a copy of the Boston Journal, which contains, six columns of testimonials and proofs of cures, and a descriptive article upon Catarrh and Deafness, Symptoms and Consequences.

All communications should be addressed to

W. H. CARPENTER, M.D.

AND MANUFACTURER OF ALL KINDS OF

FIREWORKS,

AT WHOLESALE AND RETAIL.

Has always on hand an assortment of Colored Fires, for Tab-
leaux, Theatres and Ball Rooms.

Laboratory, Hyde Park Avenue, corner of
Canterbury St., West Roxbury, Mass.

WEST ROXBURY.

THIS town was founded A. D. 1630. The first inhabitants settled at a place midway between Dorchester and Boston, and called it Roxbury. Their names were Wm. Pynchon, Thomas Lambe, Robt. Cole, Wm. Chase, George Alcock, Francis Pynchon, and Thomas Rawlings. Later, came persons by the names of Leavins, Hammond, Denison, Heath, Gamlin, Woodforde, Curtis, Shelby, Short, Blatt, Hills, &c. The family of Ruggles came in 1635.

The highest taxpayers about 1639 were named Weld, Dudley, Eliot, Hewes, Dennison, Stow, Heath, Alcock, Morell, Bugby, Levins, Seaver, Barwell, Gore, Johnson, Hackborne, Holmes, Curtis, and Finch.

The first church was gathered in 1632. John Eliot "the apostle to the Indians," became the "teacher" of this church and Thos. Welde, the pastor.

It is said, in Ellis's history, that "in 1706, Joseph Weld, and forty-four others at the West end of Roxbury towards Dedham, commonly called Jamaica End and Spring Street," presented to the General Court a petition reciting that they were "settled in an out-part of the town, at great distance from the meeting house and the great Travail and time in going and returning," &c., and praying to be made a separate precinct, embracing that part of the town, lying between the line running across the town at the upper part of the plain and Dedham, including about fifty families, and to be freed from taxes for the old parish and for aid in building a house. The original, with the signatures of the inhabitants at the West end and the original orders of Court endorsed thereon, is still preserved in the hands of one of the families in town. It was first proposed to set the house at Weedy Plain. The first Church stood on the old Dedham road, on the part now called Walter street, near the old burying ground. The third or Jamaica Plain parish, was not formed till more than fifty years afterwards.

In 1683, voted, "that our Brethren at Jamaca have liberty to provide a covenant place for a berring place and ye towne in generall will bare the charge provided the selectmen doe judge the place covenant, and the aforesaid berring place if so provided shall be for any of the towne to bury their dead in if they please." The place was probably on the hill, near where the second Church stood.

In 1724, Captain Heath gave land for a burial place at the Plain."

A pretty correct view of the condition and resources of the town may be obtained from the following "Mass. State Census Report of 1865 :"

STATISTICS OF INDUSTRY --- WEST ROXBURY.

Saddles, Harnesses and Trunks, establishments for manufacture of, 2 ; number of each manufactured 27 ; value, \$1,644 ; value of stock used, \$850 ; capital, \$2,000 ; hands employed, 5.

UNION MUTUAL Life Insurance Company

O F M A I N E .

DIRECTORS' OFFICE,

No. 27 Court Street, Boston,

(Daily Advertiser Building.)

"A company which enjoys so much distinction, in the list of our foremost few best companies, as the UNION MUTUAL, needs scarcely any commendation other than that which is constantly exhibited in the continued record of its usefulness. But its last annual report attracts attention to a few important points, which cannot be too diligently set before the public mind in these days of a feverish competition which is straining the resources of so many companies. We find, for instance, that the Union Mutual received last year \$1,707,821, while its management expenses were only \$225,000. Its interest receipts exceeded its death losses by *forty thousand dollars*, and the amount distributed to policy-holders as dividends was about double what it paid for losses."—THE SPECTATOR, March, 1870.

The Assets of the Union Mutual Life, on the 1st
of January, 1871, were . . . \$5,295,233.27

Its Total Liabilities, (according to the standard of the Massa-
chusetts Insurance Department), on the same date,
were . . . \$4,652,301.36

Its Surplus, on the same date, was . 642,931.91

For every one hundred dollars owed by the Company on that date, it
had one hundred and twenty-three dollars in clean assets.

The Percentage of Expenses to total income, for the year 1870,
was . . . \$12.81

Claims paid to Income was . . . 14.65

During the year 1870 this Company issued 4612
Policies, insuring \$11,000,000; the whole number
of Policies in force on the 31st of Dec. 1870, was
15,852, insuring over Thirty-Six Million dollars.

EDDY REFRIGERATORS.

Factory at Harrison Square,
SIXTEENTH WARD,
BOSTON, MASS.

OFFICE,
Nos. 7 and 9 Essex Street,
BOSTON, MASS.

A PERFECT AND RELIABLE ARTICLE.

The Packing to these REFRIGERATORS is of PULVERIZED CHARCOAL, which is a non-conductor, thereby using less ice, and retaining the cold much better than if Charcoal was not used. The shelves are of SLATE STONE, which are always, sweet, clean, and cool. The

Ice Chamber Bottoms

Are double-lined with Zinc and Iron, a protection against ice picks, and never musty. They are lined throughout with Zinc, and built of the best materials in a thorough and workmanlike manner. The air inside is always pure and dry, preserving articles of food in the most perfect manner.

Persons wishing to purchase Refrigerators are invited to examine those of our manufacture.

D. EDDY & Son,
BOSTON, MASS.

DOME PORTABLE.

THE BARSTOW RANGE.

DOME BRICK FURNACE

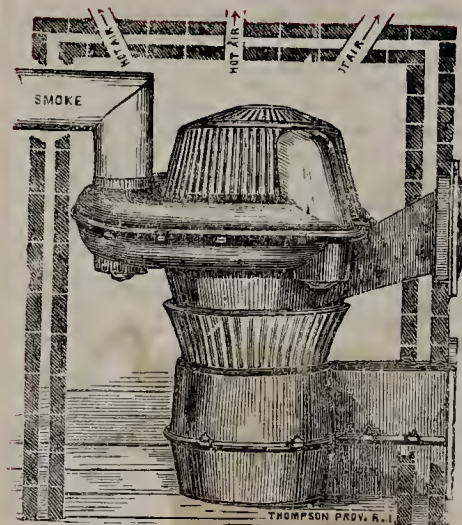

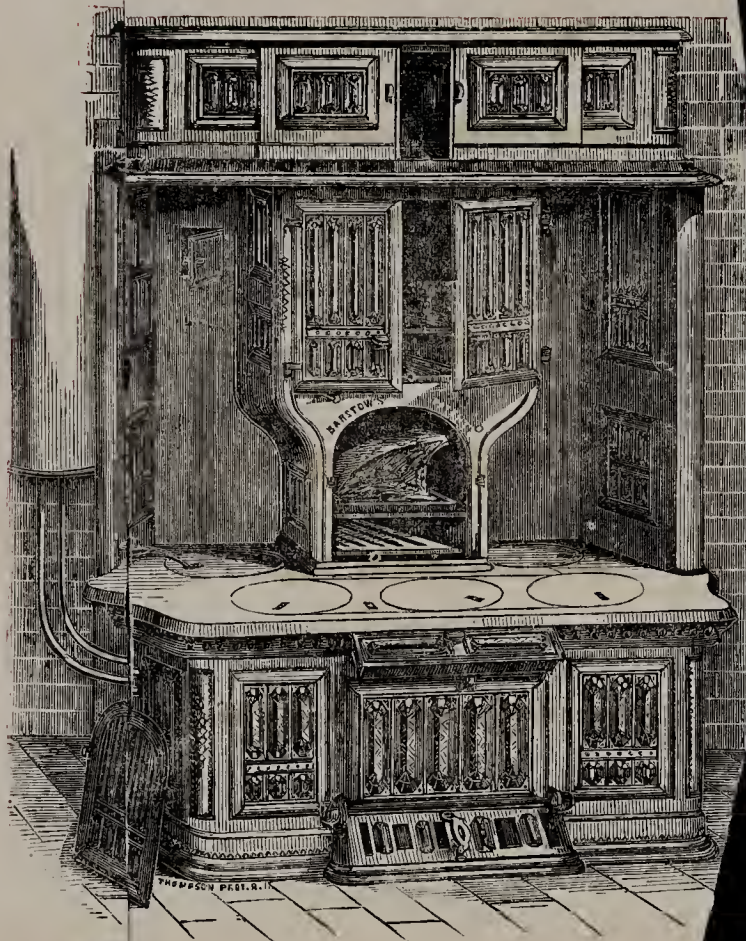

WITH CAST IRON FIRE POTS.

Two Sizes — Nos. 2 and 3.

18 Inch and 20 Inch Fire Pots.

A new article, all cast iron, except the outer lining, with large radiating surface, very durable, can be made up at moderate cost

WITH CAST IRON FIRE POTS.

Three Sizes — Nos. 3, 4 and 5.

No. 3 Fire Pot, 22 inches at top.

No. 4 Fire Pot, 25 inches at top.

No. 5 Fire Pot, 27 inches at top.

This Furnace was greatly improved in 1866, and as now made is unsurpassed, if not unequalled, as a heating apparatus, with a cast-iron pot.

The doors are made to shut so tight, as to give perfect control of the draft.

THE MODEL PARLOR.

TWO OVENS. FIVE BOILER HOLE

FOUR SIZES.

- No. 2, 7 in. Baking Oven, 17 by 17 inches on bottom — 12 inches high.
- No. 3, 8 in. Baking Oven, 18½ by 18½ inches on bottom — 12½ inches high.
- No. 3½ same as No. 3, except grate, which is two inches longer, and ash-pit two inches deeper.
- No. 4, 9 in. Baking Oven, 20½ by 20½ inches on bottom — 13 inches high.

Extreme length of No. 2 Range is 3 feet 9 in. Extreme length of No. 3 Range is 4 feet. Extreme length of No. 4 Range is 4 feet 3 inches.

While a good cooking apparatus of some kind is a NECESSITY in every house, a good Range is a real LUXURY. A Range is a fixture, and suggests the idea of PERMANENCE, which is one of the requisites of a PERFECT home.

Many have preferred Stoves to Ranges for economical reasons. Most Ranges have been constructed with large fire-chambers, and with joints so open that there could be no proper control of the draft. In the hands of careless cooks, these things would necessitate a great waste of fuel. So, in most of the ranges now in use, there is so much of a complication of dampers, that a change of cook often throws the whole family upon their own resources, and poor at that.

In presenting a new range for competition with the great variety now in the market, we beg to call the attention of the public to the following peculiarities:—

- 1st. It is attractive to the eye; the most beautiful article made.
- 2d. Strength and durability have not been sacrificed to beauty. We think it the heaviest article made. Moreover, it is so constructed that it will keep its place. The brick work cannot throw it from its bed.
- 3d. The whole surroundings of the fire-plate and ovens being of iron, it can be easily kept clean.
- 4th. It has no dampers to perplex the cook, and is so entirely simple, that, with a good fire, a cook who approaches it for the first time, can carry along every operation in cooking with ease. The natural draft through the fire carries the heat to all the boilers, and to both ovens, without let or hindrance.
- 5th. Perfect control of the draft is had by the slide in front. When you are not baking, you can close the draft slide, and thus save, without extinguishing the fire.
- 6th. The striking peculiarity of this Range, that which distinguishes it from all others, is the arrangement of the ovens. The lower oven stands upon the boiler-plate, rear of the fire. The oven, formed of cast iron, is readily heated; and, being directly above the other, is as readily heated as sheet iron, and being directly above the other, is as readily heated as sheet iron, and being directly above the other, is as readily heated as sheet iron.

The arrangement of ovens is also a convenience with respect to the boiler, as they so overhang them as to prevent placing and removing them with ease.

A BEAUTIFUL PARLOR STOVE.

Two sizes, with or without Ovens.

Shaking Grate and Ash Pan.

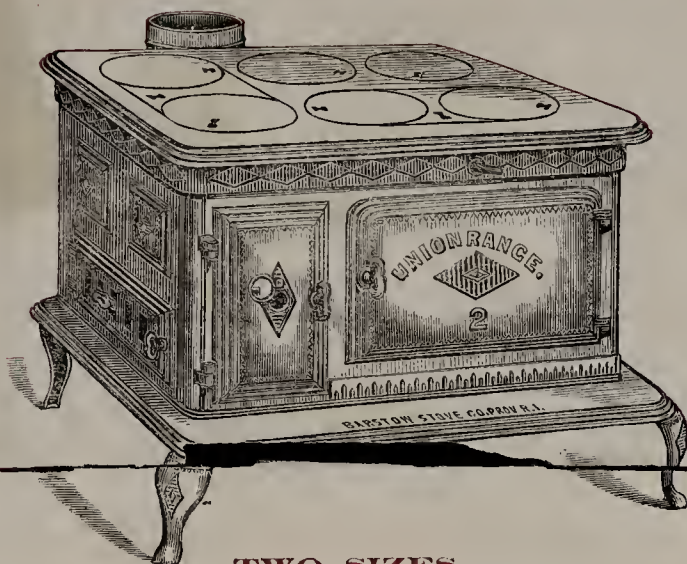

AIR-TIGHT STOVE

FOR WOOD.

This is a beautiful design, Wood Air-Tight, suitable for Chamber or any room where wood is used.

UNION RANGE.

TWO SIZES.

The No. 2 Union Range has 7 Inch Covers.

“ “ 3 “ “ “ 8 “ “

EVERY STOVE WARRANTED TO GIVE SATISFACTION.

We invite attention to a new and most economical and convenient cooking apparatus ; and beg those in want to examine it with reference to these particulars.

1st. It has six apertures for boilers, and the heat is carried directly to them all before it leaves the Range.

2d. The heat is carried over the top, end and bottom of oven in a whole sheet, and then is taken up over two-thirds the oven back. This ensures very rapid and economical baking.

3d. The fire chamber is arranged to burn either coal or wood ; and by the use of a pan with a swing handle, the ashes are easily removed.

4th. By the use of a cut-off on the top of the back flue the consumption of fuel can be regulated and controlled at pleasure.

5th. The changeable outlet will be a great convenience in many places : as by it a short, light pipe can be taken directly into the fire-place or chimney ; or by the use of the crooked collar, it can be taken up and turned into the chimney above the mantel ; if an upright pipe is needed, and it is convenient to push the Range back a foot nearer the chimney, the crooked collar can be dispensed with, the opening closed with a cover, and a collar inserted in the back centre hole.

6th. If a hot closet is wanted, we have one of beautiful form, connected with an ornamental iron frame work, the whole size of the bottom, and occupying the same height as the ordinary legs.

SOLD WHOLESALE AND RETAIL BY

WILLIAM B. WADMAN,

Nos. 1197 and 1199 Washington Street,

Near corner
Union Park Street.

BOSTON.

MANUFACTURERS OF
**PARLOR
FURNITURE,**

OF EVERY
DESCRIPTION.

ALSO,

MARTINE'S PATENT BED SOFA,

THE BEST IN USE.

We will sell Parlor Furniture, all of our own make, cheaper than
can be bought in any other place in Boston. All our goods war-
ranted.

N.B.—FURNITURE NEATLY REPAIRED.

REMOVED FROM

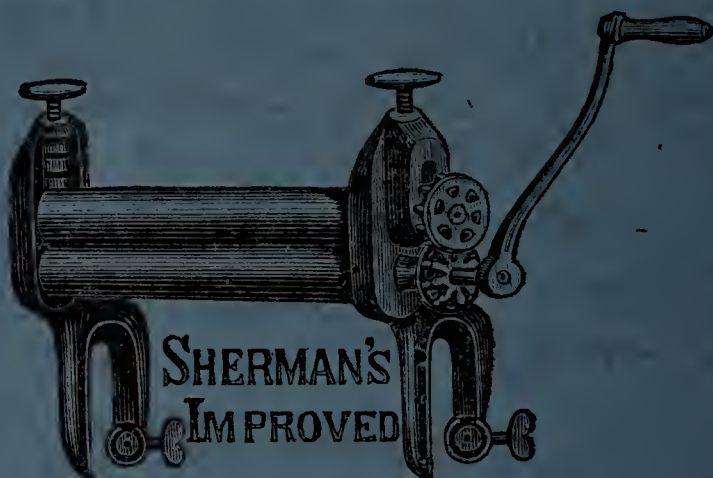

No. 72 1-2 Harrison Avenue.

TO 91 HAVERHILL STREET, BOSTON.

PIANO STOOLS ALWAYS ON HAND.

THE SHERMAN WRINGERS,

With or Without Cogs,

With or Without Cogs,

**Are made of the best Galvanized Iron
AND WILL NEVER RUST NOR SOIL THE CLOTHES.**

**They are the most Simple, Compact, Durable,
Less liable to get out of order, easy working, and
best fitting to the tubs of any Wringer made.**

The Springs are of the best Car Spring Rubber, and are more elastic and durable than Wood, Wire, or Steel Springs, used in other Wringers. They have had the most extensive sale throughout the United States for seven years, and have always given the most perfect satisfaction in every instance.

HOME WASHER.

It will wash from one article to one hundred in one minute, and no rubbing. It can be used by man, woman, or child. The best Wringer ever invented.

**Wringers of all kinds
Repaired.**

FOR SALE, WHOLESALE AND RETAIL.

Warrens'

Roofing.

100,000,000 Square Feet

OF

WARREN'S ROOFING

IS NOW IN USE IN NEW ENGLAND, UPON THE
MOST COSTLY

Public and Private Structures.

This material the standard roofing for the largest Manufacturing Companies in New England,
has been used extensively on all classes of

Railroad Buildings,

and has proved itself the only material which will resist the action of CHEMICALS ON
BUILDINGS USED FOR SUCH MANUFACTURES.

FIFTY OF THE LARGEST

Manufacturing Companies

in New England alone have more than 1,500,000 square feet of surface covered with
it; many thousand feet of which has been

SUBSTITUTED FOR TIN.

OF INSTITUTE OF TECHNOLOGY, the NATURAL HISTORY BUILDING, the
CITY HOSPITAL, and many of the most expensive private dwellings on BEACON
STREET, COMMONWEALTH AVENUE, and in that vicinity, are
roofed with this material.

MANUFACTURED ONLY BY THE

New England Felt Roofing Company,

5 LIBERTY SQUARE . . . BOSTON.

LEVI L. WILLCUTT, Treasurer.

Also, Manufacturers of DRY and TARRED SHEATHING
PAPER, of EXTRA QUALITY for Builders' use.

FINE CLOTHING.

ROBINSON'S PATENT SYSTEM OF VENTILATION.

For Churches, School-Rooms, Prisons, Stables,
Factories, and Workshops, Drying and
Dressing Rooms, &c.

Founded on the only Correct Theory of Ventilation.

Has been applied in MANY HUNDREDS OF CASES, with
UNIVERSAL SUCCESS.

On page 37 of the Boston School Report for 1863, see this:

"In the nearly or quite unanimous opinion and experience of the members of the School Board, the System of Ventilation represented by Robinson's Instruments is the best now in the market. Their judgment in this respect is based, not upon mere theory, but on positive, indisputable facts. In the Bowditch Grammar School-house, and in the Primary School-house on Harrison Avenue, the success of these Ventilators has been COMPLETE and ENTIRELY SATISFACTORY, and CANNOT BE QUESTIONED."

ECONOMY AND COMFORT.

This is the Season to Prepare for Winter. Weatherstrip your houses with

H. L. MAYO'S

Double-Action, Patent Improved

RUBBER MOULDING.

They do not prevent the free use of either sash; they will save one-fourth of your fuel; keep out snow, rain, wind, dust, &c.; exclude noise, and prevent the rattling of windows, and slamming of doors. My weather strips are admitted, by all that use or see them, to be the best in use. Put on in a workmanlike manner or no pay asked. **AGENTS WANTED.**

Don't forget the number, 109 Washington St.

PLEASE CALL AND SEE THEM.

PATENT SELF-ADJUSTING WINDOW SCREENS.

If you want the only perfect screen in use, a screen that will keep out all insects, and not prevent the free use of either upper or lower sash. It is quickly and easily adjusted by any child six years old. It is very durable and ornamental as can be desired. Fitted in a workmanlike manner or no pay asked

WIRE CLOTH

of all patterns, at the lowest price. Also,

Tobey's Patent Device

For Lowering and Raising Windows, Simple, Ornamental, and cheap.

PATENT SCREWS,

For house or car finishing. They will not tarnish; far superior to the Silver Capped Screw, and much less price. All the builders that see them, use them.

USE THE REVERSED-PRESSURE

DOOR SPRING ON YOUR DOORS.

It is the only Spring that will keep your door closed, the power being the greatest when the door closes, and decreasing as the door opens.

These Springs have been in use in this city the past year, and have given the best satisfaction of any Door Spring now in use.

Parties desiring Springs can have them applied at their residences or places of business, by sending their orders to, or please call at,

KIMBALL & HEBARD'S PATENT

IMPROVED WINDOW EXTENSION SCREEN AND MOSQUITO BAR.

Superior to all former Patents in Neatness, Convenience, and Durability.

SHOWING THE SCREEN SHUT DOWN.

Surpassed by none in Compactness & Economy
of Time and Labor in adjusting.

A Long-felt Want Supplied. Best and Cheapest to be found anywhere.

Messrs. KIMBALL & HEBARD, having secured the above patent, dated 4th January, 1870, No. 98,601, would respectfully direct public attention to it, it being undoubtedly far superior to any article of a similar nature at present in the market. It needs only a single glance to perceive the peculiar advantages to be derived from this invention. By a beautiful, but, at the same time, most simple arrangement, it can be adjusted WITHOUT ADDITIONAL EXPENSE, so as to fit any window, and hence will be a great desideratum, even for this reason only, to those who from the nature of their employment or other causes, are compelled to change their place of residence frequently. A margin of eight inches is allowed to each screen for lateral contraction or expansion, as may be required.

When once adjusted, the screen, which is supplied with a self-acting roll, can, if desired, be allowed to remain for any length of time, the protection afforded by its case being quite sufficient to prevent any injury by the weather. Special care has also been taken to prevent the warping of any part in any climate.

When the window is opened, the screen unrolls, completely covering the space; allowing, however, a free circulation of air, and at the same time excluding such unwelcome visitors as Mosquitos, Flies, &c.; when closed, the screen disappears. By detaching the case from the sill, the screen remains encased on the sash, and the window can be used as if no screen were attached.

These screens will be made of first-class materials, selected by the patentees themselves, so as to insure a good article being supplied to our customers.

All persons are cordially invited to inspect our article before purchasing elsewhere. All orders addressed to the undersigned will receive prompt attention, and a liberal allowance made to the trade.

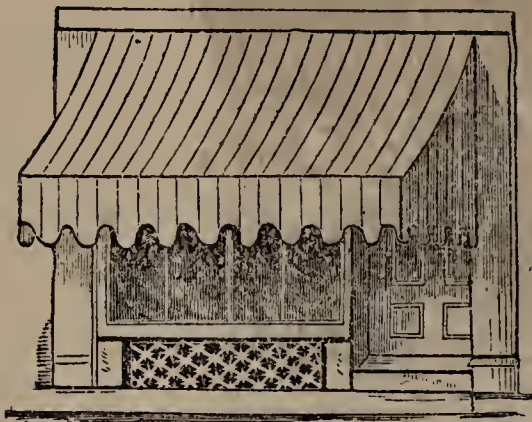

State and County Rights for sale. Agents wanted in every town and county in the United States.

KIMBALL & HEBARD.

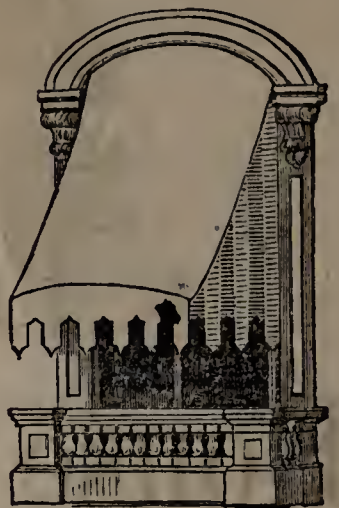

Post Office address, Neponset, Mass., or 149 Broad Street, Boston, Mass., where models can be seen and had.

Umbrellas and Parasols Covered and Repaired.

PATENT PAPERED WOOD HANGINGS.

WOOD HANGINGS are now manufactured with paper on the back. Since their first introduction this Paper Lining, with other IMPORTANT IMPROVEMENTS, has made them most practicable and desirable, and Architects and Builders generally are rapidly introducing them, and conforming their plans to this mode of decoration.

HALLS, LIBRARIES, VESTIBULES, RECEPTION, DINING, DRAWING AND BATH ROOMS, in the most costly houses, are constantly being finished, and a general satisfaction with its elegance and durability increases as the public become informed of its merits.

The Mason & Hamlin Organ Company, Boston, May 29, 1870.

CHAS. W. SPURR, Esq. Dear Sir,—It gives me pleasure to add a word to the many which have been spoken by others, in praise of the beautiful Wood Hangings manufactured by your Company. Those put up in the dining-room of my house in 1868 have ever since proved to my family a source of admiration, and I cannot see but that they are as fresh and as perfect to day as the day the workmen left them.

Yours truly, &c.,

HENRY MASON.

Erie Railway, John S. Dunlap, New England Agent,
124 Washington Street, Boston, June 24, 1870.

CHAS. W. SPURR, Esq. Dear Sir,—I have your favor of the 1st, referring to your Wood Hangings. About a year since I had it used in the dining-room and halls of my house, and to date I am perfectly satisfied with it in every particular.

Very truly,

JOHN S. DUNLAP.

Office of R. S. Gilmore & Co., Manufacturers of Mouldings of all kinds, Brackets,
Jig Sawing, &c., 35 to 39 Wareham St., Boston, June 5th, 1870.

C. W. SPURR, Esq.,—In regard to your Wood Paper, for dadoing and papering walls, my experience with it has been entirely satisfactory, and it will, without doubt, in a short time entirely supersede all other modes of dadoing.

Yours truly,

RUFUS S. GILMORE.

Transcript Office, Boston, May 10, 1870.

CHAS. W. SPURR, Esq. Dear Sir,—The Wood Hangings you put up in my house, No. 14 Montgomery Street, have stood the test of two years' use, to the entire satisfaction of the family. It is as firm on the wall as the day you left it. The heat or moisture has not caused the wood to peel in a single spot, and I see no reason why it will not remain so for years. I can cheerfully recommend its use to all, in preference to paper in a dining-room.

Respectfully and truly yours,

H. W. DUTTON.

112 Beacon Street, Boston, April 9, 1870.

C. W. SPURR, Esq. Dear Sir,—Having tried your Wood Hangings, I have found them satisfactory in every respect, and you can refer to me whenever you may desire to do so.

And I remain, yours very respectfully,

A. T. PERKINS.

MRS. PAIGE'S NEW METHOD

FOR THE PIANO,

Recently published by Oliver Ditson & Co.

Is the best book in the market of the kind, it being a key to all other similar books.

MRS. PAIGE will impart instruction to pupils at *The Studio*, both in private and in classes. Teachers fitted in a remarkably short time.

Music Teachers can now be instructed in the *New Method* by the *Quarter*.

Room and Piano furnished to pupils from a distance. Address, with stamp for circular, Mrs. J. B. PAIGE *Musical Studio*, 616 Tremont Street, or enquire at Oliver Ditson's 277 Washington Street, Boston.

From The Boston Pilot, July 23, 1870.

MRS. PAIGE'S SYSTEM. — Mrs. Paige, who some years since invented a new and wonderful way of teaching the piano-forte, and whose scholars have made such remarkable progress, has been persuaded to put the first part of her method in book-form, so as to be more generally accessible. Teachers should not fail to give the work a thorough examination. It is filled with useful, well arranged exercises, invented for the new system. By a few weeks' practice of these exercises, pupils find themselves competent to play pieces, which formerly were out of their reach until the second year of study. The book is published in handsome style by Oliver Ditson & Co.

From The Boston Evening Traveller, June, 1870.

One of the most valuable musical publications of the day is Mrs. J. B. Paige's "New Inductive and Eclectic Method for the Piano-forte," which is being universally adopted. Its value is to be found in a peculiar system of finger-training, by which the pupil acquires remarkable control of the keys of the instrument, great facility of execution, and familiarity with every scale. Besides, the pupil is soon, by the relations of tones, the formation of chords and their legitimate keys, made acquainted with the art of thorough bass and science of harmony and composition. The work is published and for sale by Oliver Ditson & Co.

From The Massachusetts Ploughman, June 25, 1870.

NEW PIANO INSTRUCTION BOOK. — We call attention to the advertisement of "Mrs. J. B. Paige's New Instructive and Elective Method for the Piano-forte," published by Oliver Ditson & Co., Boston. It is based on wide experience, and profound study of the methods of teaching: and it has several new, distinctive, and valuable features; and, in those particulars, it is far in advance of any system for the piano-forte yet presented.

From The Boston Reflector.

OLIVER DITSON & Co. have published "Mrs. J. B. Paige's New Inductive and Eclectic Method for the Piano-forte." Mrs. Paige has long been known to the public as a teacher of a new method for the piano,—one entirely her own, and claiming the virtue of an explicit mastery of the whole art in an extraordinary short space of time. This method she has now given to the public; and we must say that her book is unlike any other instruction book for the piano. It is certainly very novel, and comprises much of the theory and science of music, combined with piano instruction.

From The Saturday Evening Express, June, 1870.

MRS. PAIGE'S SYSTEM OF MUSIC.—We have received a copy of Mrs. Paige's book, entitled "New Inductive and Eclectic Method for the Piano-forte," which is handsomely got up, and will be sure to make a complete revolution in the science of music. It embodies the labor of years,—Mrs. Paige having devoted all the energy of the best part of her life to its completion,—and the result is one of the best books of the kind ever published. Parents teachers, and scholars will gladly welcome the instructions contained in this book as a relief from the drudgery of the old system. We shall examine it thoroughly, and give it a more extended notice hereafter. For sale by Ditson & Co., at a low price for the character of the book.

DR. E. D. SPEAR'S ADVERTISEMENT.

E. D. SPEAR, M. D.

OFFICE, 713 WASHINGTON ST.

Boston, Mass.

The medical record of Dr. E. D. SPEAR as a successful physician in the treatment of chronic diseases is without a parallel. Many are suffered to die who might be saved. Dr. Spear makes a direct appeal to the substantial, intelligent and cultivated citizens of our country, and asks that his claims as a physician of extraordinary powers may be investigated. *If you are beyond human aid, Dr. Spear will not deceive you.* If you have ONE CHANCE, he will save you. Come to his office and consult him. If you cannot visit, consult him by letter, with stamp.

WOBURN, Oct. 18th, 1853.

DR. E. D. SPEAR, — Dear Sir: I beg leave to introduce to your attention, the bearer, a worthy, respectable gentleman, whose aged, venerable mother is in a feeble state of health, given over by our physicians as incurable. Thinking it possible, from what I have heard and read respecting the efficacy of your valuable medicines, that they might relieve or even cure her, I wish her to try the experiment of your skill.

I will only say of myself, I am an aged minister of the Gospel, and although unable to preach, I wish to do some good as long as divine Providence shall continue me among the living. This alone, I trust, is my motive for addressing you at this time, and calling your attention to the case of my highly respected friends.

Yours, with confidence and respect,

Signed,

LUTHER WRIGHT.

Statement of William B. Trask, Esq.

DORCHESTER, November 22d, 1865.

DR. E. D. SPEAR,—Dear Sir: I have long been desirous of expressing in writing, my grateful appreciation of your kind and beneficial service to me, when an invalid. I went to you an entire stranger, on the 28th of August, 1856,—more than nine years ago—about as weak in body as one could be and walk. I had become thus reduced by a long and close application to a business unsuited to my condition. My blood being in a bad state an irregularity of circulation was produced and a derangement of the vital organs which would probably have soon terminated fatally, had there not been an immediate application of the proper remedies. Your excellent medicines and timely advice soon produced a change, slowly but surely, renovating the whole system. Your “Liverwort Pills,” which I would not be without, have done wonders for me in removing obstructions and regulating the system. They have operated beneficially and thoroughly, and in a manner truly remarkable. I feel as though I could not say too much in their praise. Everybody would use them, I think, if they knew their value. Repeatedly have I recommended these pills to my neighbors, who have used them with decided benefit. With your other medicines, they have been instrumental in raising me from a state of great debility to comparative health. Although for some years I had occasional relapses, produced by an over-tasked system, your medicines would soon vitalize and restore my enfeebled energies. By continued perseverance in following out your judicious directions, I owe, under Providence, my restoration to what myself and my friends consider a good degree and permanency of health. I would, therefore, cordially recommend to those who are afflicted, a fair trial of what I consider your superior medical treatment. With sincere regards, I am, yours truly,

WM. B. TRASK.

Wm. M. Cornell, M. D., LL. D., says—

As respects the gentlemen named in Dr. Spear's certificates, we were acquainted with the Rev. Luther Wright, and knew him to be a venerable and worthy Congregational clergyman, whose character for truth and integrity was never questioned, and who would not encourage or recommend what he had not the firmest belief would do good. With Wm. B. Trask, Esq., we have had a long and happy acquaintance, and know him to be a most worthy and esteemed citizen of Dorchester. He was for a long time historiographer of the New England Historic-Genealogical Society, and is still an officer of the same society, and his word may be depended on as coming from a man of veracity and integrity.

A Terrible Cough of Three Years' Standing, cured in Three Weeks.

BOSTON, Nov. 4, 1869.

DR. E. D. SPEAR,—Dear Sir: John C. Gordon, a near relation of mine, some four years ago lost his health in California by hardship and exposure to wet and cold. This complaint was in his lungs, followed by a distressing cough, shortness of breath, wheezing, and a great discharge of putrid phlegm, in some instances accompanied with small pieces of membrane, to all appearances the coating of the lungs. For three years he consulted many physicians, and used much of their medicines, but all to no purpose. About the 10th of June last he visited me in Boston, and diligently sought medical aid till some time in August, all the while continuing to grow worse. In fact, I and many others looked upon his case as hopeless when he applied to you. But to our pleasing astonishment in a very short time (three weeks) he got complete relief. About the 15th of September he bade us adieu and started for California, thankfully saying that Dr. Spear had made him a WELL MAN. I now cheerfully recommend any person suffering of lung complaint to apply to you without hesitation.

Yours, very sincerely,

ROBERT GORDON,

76 Carver Street.

Scrofula Consumption.

At the age of twenty years I was taken sick and grew rapidly worse, and could do no work for months. I was so very weak that I could sit up but a few moments at a time. My parents called as good a physician as we have in these parts. He did me but little good; he said it was useless to give me anything more. I then tried several medicines that we have read of. By this time hereditary scrofula was fully developed through my whole system. The bones upon my arm were bare with scrofula sores; I had an abscess between my shoulders, I coughed badly, my lungs seemed diseased, my whole system feeble and my diseases firmly seated. I had seen the good effects of Dr. Spear's medicines in the case of my brother some years before. Soon after using Dr. Spear's medicine I grew stronger. In August my cough was well. The old cap bone of my elbow came off and left new bone. Pieces of bone came away from my spine, my sores all healed, my scrofula went away, and now my arm is sound and I once more enjoy good health. That I am alive and

DR. E. D. SPEAR'S ADVERTISEMENT.

have good health is due, under Providence, to the advice of Dr Spear and his good medicines.

(Signed)

ROXANNA SCALES.

Witnesses to the truth of the above statement—Royal Scales, C. Scales, Royal Scales, Jr., Nathan Emery, Esq., Canterbury, N. H.

October 18, 1865.

Miss Scales has since married. Read a later statement of hers. Thus is Dr. Spear permitted to be the humble agent of Heaven to save the lives of the dear children. In August last my little daughter, two years of age, was sick with bloody dysentery. Terribly sick she was. I even now shudder to remember how near death she lay. We had three doctors, the best we have in these parts, who said she would die; that she could not live until the morrow. What agony went to my heart, mothers alone can know. My little darling die! My sweet one dead! My angel buried in the cold ground out of my sight!!! In my agony of despair, I exclaimed: "If Dr. Spear was here, he would save my child." "If you want Dr. Spear to come, and if money will bring him, he shall come," said my good father in reply. We at once sent a telegram to Dr. Spear, in these words: "Come to Potter place, to-day. Dysentery." Father met Dr. Spear at the depot about eleven o'clock at night, and, taking him by the hand, said: "Dr. I am glad to see you, but you are too late to save the little girl; she cannot live till morning; the doctors say she cannot live, and I know something about sickness myself, for I have been a nurse a long time. We do not expect you to save the girl, but do save the mother and babe." (We were all sick.) Dr. Spear sat nearly all night by the little girl. In the morning, instead of the glazed eyes of death, which we feared we should find, bright little eyes greeted us. We did not have to ask how she was; we could all see that she was better. Death! Life!! O, the gladness of hope. The awful hour had passed. God showed mercy to us, and sent a physician to us who understood our needs. Dr. Spear saved my own life, he saved the life of my child. In justice to Dr. Spear, we make this statement. We have known the Dr. for many years, and we know that he has done wonders, and we believe that the world will yet acknowledge him as one of the great benefactors and reformers of the age.

ANNIE ATWOOD, the child's mother.

From a Photograph of Mr. DOE,
taken April 9, 1869.

For the benefit of the sick, I wish to make a statement of my case. I had been gradually failing in my health for some time, when I was taken with severe bleeding. My cough grew troublesome. I raised very bad matter from deep down in the lungs. The bleeding returned upon me frequently — in January, 1868, having had an alarming fit of bleeding, I thought unless I soon got relief my days would be few. My hope was about gone. Seeing DR. SPEAR'S card in the papers, I was reminded of several remarkable cures of his which had come under my notice. I concluded if he could not cure me, no one could — I would make the trial. I immediately put myself under the Doctor's treatment, and wonderful as it may appear in such an extreme case, not a week passed before I felt the good effects of his medicine, and in two months the change in me seemed miraculous. It has now been a year and a half, and I have taken a new lease of life. The Doctor tells me there is no reason why I may not live many years. The pen cannot convey the remarkable change in me. I have, therefore, furnished Dr. Spear with my photographs, one taken before consulting him, the other taken the 9th of April, 1869. I know there is a strong feeling among some against a physician who advertises, but if there is one thing better than another, or one physician who is more likely to cure us than another, why not let the people know it? DR. SPEAR cured me when I was seemingly beyond hope, and I wish to tell everybody about it.

CHARLES O. DOE.

Boston, July 31st, 1869.

DR. SPEAR,

Boston, Sept. 2, 1869.

Dear Sir: — My weight is now 183 pounds, the highest figure I have ever weighed.

CHARLES O. DOE.

Remarkable Cure of Dyspepsia and Liver Complaint.

DR. SPEAR — Dear Sir: I have been afflicted for more than three years, with the above complaints. I was so completely prostrated that I could lie on neither side, or do any work. I tried several physicians, but they gave me little or no relief, and had given up all hopes of ever obtaining relief from my sufferings. I had not drank a pint of cold water for three years past. I commenced taking your medicines the last of August. I made use of the *Jaundice Bitters and Balm of Life* (No. 2), the *Catarrh Snuff*, *Liverwort Pills*, three nights in succession, and bathed my stomach, where there was much inflammation, morning and evening, with the *Red Liniment* or *Pain Killer*. I had pursued this course only EIGHT DAYS, when I could drink a large tumbler of water at any time, and, in less than four minutes large drops of sweat would be seen standing upon my hands. This was a great change, but it was no more strange than true. I relished my food better, it gave me less distress, my spirits revived, my strength returned, and with it came my native disposition to labor; and now all the universe cannot hinder me from being actively engaged in some useful employment. I am now engaged in my old favorite occupation, viz: teaching a District school. I have not taken more than six dollars' worth of the medicine. No tongue can tell, no language can ever express half the benefit that I have already received from the use of these remedies for the Liver Complaint and Dyspepsia. I am writing for the benefit of the suffering part of the community, and to these I would respectfully say, make use of these Indian remedies for your complaints, in preference to calomel, or any other poisonous drug, if you would like to enjoy health — one of the greatest blessings in the world — and relish the comforts and enjoyments of life. I feel grateful to my heavenly Father for his loving kindness to me, and I close by asking Him to make this humble certificate the means of restoring thousands, who are now suffering under various diseases, to sound, unbroken health, so that they may not only be able to take care of themselves, but those also who may stand in need of their kind services.

ENOCH LITTLE.

ATKINSON, N. H., Nov. 30, 1846.

A later statement by Mr. Little.

ATKINSON, N. H., Nov. 2, 1865.

DR. E. D. SPEAR — Dear Sir: This is my birth-day, having completed my sixty-second year. As I commence my sixty-third, I render to my Creator unceasing thanks for the many blessings that I have received from his unspeakable goodness.

I think it nearly twenty years since I first made use of the Indian Vegetable Medicines. The Medicines then proved very

DR. E. D. SPEAR'S ADVERTISEMENT.

efficacious in curing me of Dyspepsia and Liver Complaint, which other doctors and medicines had failed to do. I have occasionally, as needed, made use of your medicines ever since; and have always found them very beneficial.

The Jaundice Bitters, and Balm of Life, No. 2, when taken together, always give strength and vigor to the patient. The Jaundice Bitters alone, in many cases, are just what nature requires. The "Liverwort Pills" are safe, and sure to give satisfaction to those who use them. The Catarrh Snuff is the best I have ever used.

I have ever prized these medicines for their intrinsic value. I have not only taken them myself, but I have administered them frequently to many others with good results. Let it be remembered by *all* who may chance to read this certificate, that it is made by one who speaks from twenty years' experience and knowledge.

ENOCH LITTLE.

BOSTON, MASS., July 17, 1865.

TO WHOM IT MAY CONCERN:—I can confidently say, from personal knowledge that "Dr. Spear's Indian Vegetable Medicines" are most excellent remedies. Nothing deleterious enters into their composition; and, for the diseases for which they are recommended, I consider them superior to any other medicines; especially have I found this to be the case in all bilious affections and diseases of the throat and lungs. The whole series of these medicines have a wide range, and meet the want of nearly every disease that flesh is heir to.

Being entirely vegetable, and of such articles as are universally acknowledged to be of great medicinal virtue, and the combination very skilfully made, the patient can feel assured that he is taking the best medicine the vegetable kingdom affords; and when the disease is overcome, there are no bad effects resulting from the medicine itself, as is often the case with mineral medicines.

CHARLES YOUNG.

Bleeding at the Lungs and Scrofula Cured.

WELLFLEET, MASS., October 23, 1865.

DR. E. D. SPEAR, — Dear Sir: — It is with pleasure I acknowledge the great benefit I have received from the use of your medicines. In December, 1861, I was attacked with bleeding. I called at your office to see if you could do anything for my relief. After using your medicines I appeared to be well. In June, 1862, by over-exertion I brought on another and much more severe attack. I well remember the time I got my sister to

DB. E. D. SPEAR'S ADVERTISEMENT.

write to Dr. Spear for his medicines. My bleeding was not any common case, I assure you. After giving the medicine a fair trial, it entirely cured me. From that time to this I have had no bleeding. I eat anything, sleep well, stand at my barber's chair twelve to fifteen hours a day, and drive round as well as I ever did.

My wife has had a scrofulous sore upon her leg for eighteen months, and could get no relief. I told her I was going to try Dr. Spear's medicines, for I believed he could cure her. In less than two months after she commenced taking the medicine, the sore was well, and it never troubled her again. The leg was as well as the other.

I would say to all who read this, if you give Dr. Spear's medicine a fair trial, and take it as he directs, you will be blessed with good health.

JOHN G. HIGGINS.

We, the undersigned, having used Dr. Spear's Pills, and other medicines, with benefit in various complaints, do consider them safe and salutary, and in many cases invaluable, and would cheerfully recommend those who are suffering from ill health to avail themselves of his judicious advice and excellent remedies.

JOHN D. CLAPP.

CHARLOTTE Y. CLAPP.

Dorchester, Mass., Dec. 28, 1865.

WALTHAM, MASS., October 17, 1865.

DR. SPEAR, — I think I have used the Indian Liverwort Pills about ten years in my practice, and they have always given good satisfaction, in Fevers, Liver Complaint, Head and Back Ache, and Biliousness — finally, in most all complaints. Persons call them the cure-all for dizziness of the head.

E. N. MAYO.

TUFTONBOROUGH, N. H., October 22, 1865.

DR. E. D. SPEAR, — Dear Sir: We have used the Indian Liverwort Pills in our family fourteen years. They have proven to be superior to all others ever used by us. They are gentle in their action, and have given perfect satisfaction in every case.

J. W. BURLEIGH,
CAROLINE BURLEIGH.

DR. E. D. SPEAR'S ADVERTISEMENT.

GILL, MASS., November 3, 1865.

THIS is to certify, that, in January, 1852, having had Chronic Diarrhœa a long time, and not getting permanent help from any source, I was advised by several persons who had been benefited by Dr. Spear's medicine, to consult him in regard to my case. I did so; took his medicine, and have been greatly benefited. I recommend all who are troubled with this complaint to do as I did and get help.

ELISHA CLAPP.

GEORGETOWN, June 1, 1859.

DR. E. D. SPEAR, — Dear Sir: I certainly have no objection to stating the result of my observation and knowledge of your practice and medicines. I used your Liverwort Pills, and consider them the best pills I know of. The Mother's Cordial I believe to be a most valuable medicine. My wife has had four children. At the birth of the first two, the pains of travail were felt for several days, being infrequent and severe, and after their birth she was six or eight weeks getting up. Previous to the birth of the last two, she has used your Cordial, and has been delivered in a few hours after feeling the first indication of parturition, without a tithe of suffering experienced at the birth of the first two, and has got up in half of the time it required in the first instance, and stronger. Money could not equalize the two cases, as to me, so far as I am concerned personally. In regard to my sister's case: she was cured by your medicines alone, after two or three regular practitioners had attempted to cure her and failed.

J. P. JONES.

Consumption Cured.

DR. E. D. SPEAR, — Dear Sir For a year before I applied to you, I was confined to the house the most of the time. I could do no work without great distress. I had soreness in the head and tightness across the chest and lungs, great weakness and swelling of the feet and legs, cold chills, then hot flushes in the whole system. I had a choking in my throat that would nearly stop my breath. I could take nothing without burning and smarting in the stomach. My bowels troubled me very much. I had also the womb complaint. I had a cough that was very bad. I had different physicians, but they did not help me. I grew worse. My friends advised me to try your medicines. I did so, and have found great relief. I am about my work; can walk two miles and back with ease. *I think if I had not used your medicines I should have been in my grave.* You are at liberty to publish what I have written.

Yours with respect,

THANKFUL R. ATWOOD.

DR. E. D. SPEAR'S ADVERTISEMENT.

BOSTON, November 21, 1857.

This may certify that the subscriber has been within the past year under the medical care of Dr. E. D. Spear, for Dyspepsia and Liver Complaint, and that the best results have been experienced. In the summer of 1856, I was almost completely prostrated by these troubles, so as to render any attention to my business (that of a student) out of the question. By the use of Dr. Spear's Balm of Life, Indian Liverwort Pills, and Tonic Cordial, three months, I regained health and vigor to so good a degree as to be able to accomplish with ease all ordinary amount of business. With the occasional use of these medicines I have been constantly improving.

Dr. Spear, good care, exercise, and diet, according to his directions, I am happy to believe, are the invalid's best friends.

(Signed)

H. L. HOWARD,

Student in Andover Theological Seminary.

From the Boston Daily Times.

THE INDIAN MODE OF CURE — This is a world of diseases, varied, obstinate, fatal. Death's victims — youth, the middle-aged, and those who are not *very* old — O, how fast they fall around us! All this with the world full of physicians and medicines. Surely there are mistakes somewhere. Do you say we bring disease upon ourselves? Granted; yet need our thoughtlessness so often prove fatal? Ought we not to live that we may have a chance to learn? We have several schools of Physic, each confident in its own arrogance. Allopathy, with mercury, blisters, and lancet, throws Nature aside, and thinks to *force* a cure, and in nine cases in ten does more harm than good. Homœopathy, follows with its *similia similibus curantur* — translated, a hair of the same dog will cure — better, by far than Allopathy, yet wholly inadequate when good results are most needed. Combine the two if you please, and you will have a shocking bad compound, neither one thing nor another. Then there is Hydropathy, and you might as well think to heat your feet with the moon as to cure disease with water alone; and then how many of us could afford to spend months at a water cure, for the benefit it might do us? Then there is Galvanism and many other isms, not fit to be mentioned as curative agents. We have those who promise to cure us without medicine; the theory is, pay one of them a large sum of money, he will tell you that you should eat this and that and you will get well! This will do for the spleeny, but not for the sick. All these are but the *theories* of men. In contradistinction to all these errors we have the *Indian method of cure*, as introduced and practised by that celebrated physician E. D. Spear, whose office is at 713 Washington street, Boston, Mass.

The Indian mode of cure must be the true one. It has God for its author. God has given to animals and to races of men whose reasoning powers are latent, an unerring instinct. Thus the serpent

DR. E. D. SPEAR'S ADVERTISEMENT.

cures its poisonous bite, &c. It is by observing this Indian instinct that Dr. Spear has reduced to a system this treatment. We say, then, that the Indian mode of cure is the mode which Nature teaches, and we know of no one so well qualified for its practice as Dr. E. D. Spear. We need not caution the sick in this city to be on their guard against pretenders, for it is well understood that Dr. Spear was the first among us to practise the Indian mode, and is the only physician to whom the name of Indian Doctor or Physician ought to be applied. There are, also, men travelling in the country, falsely representing that they have Dr. Spear's medicines — that they have studied with Dr. Spear, &c. Such is not the case. Dr. Spear's medicines can only be obtained at his office,

Dr. Spear can be consulted at his office, 713 Washington street, Boston, or by letter, with stamp, free of charge, upon ALL diseases.

From the Boston Journal.

CERTIFICATE. — It is universally agreed, we believe, that experience of a thing is the best way of testing it. And *successful experience* in a thing is not greatly calculated to excite fears of delusion. One of the many whom Dr. Spear has treated for long-standing ailments, unyielding, till within the past season, during which Dr. Spear was applied to, I wish to certify to the beneficial effects I have received from his medicines. I was educated to believe that all, except the "regulars" were quacks; and probably should have acted accordingly, and suffered the fatal consequences, if I had not got so far away from home when I came to Boston, as to act my own pleasure in consulting a physician, in my need of a *good* one. I had known of Dr. Spear, the Indian Doctor, before I ever came this way. I had seen his advertisements, full of Liverwort Pills, &c. I expected when I called at his office, then in Kneeland street, to find a full-bred aboriginal specimen, with the herbs and bushes in his hand, and beads, as represented in the picture on his card, making hygiean blessings all around him. But I found as gentlemanly a physician as ever prescribed bolus or cataplasm; as correct in principle and benevolent feeling as the "head of his profession," for his own success and advantage ought to be. Nobody, I am confident, could have done better for me than Dr. E. D. Spear, at No. 713 Washington street, Boston. I care not whether a man be a *regular* or *irregular*, if, being a good man, he restores me to the joys of health, and ability to pursue my business, and do some little good during my stay here in this world, which must be short at the best. This I believe by the blessing of God, the doctor has done for me, and it is with great pleasure I recommend him to all in need of a physician's aid. His mode of treatment is simple and easy, such as agrees with nature. One great principle of nature and of God in his moral government, the doctor has prudently availed himself of. "Sacrifice the present to the future," he says, and acting thus, the benefits of his medicines are not

DR. E. D. SPEAR'S ADVERTISEMENT.

ephemeral but permanent. Go to Dr. Spear, ye afflicted. Stick to him, though you seem not to improve at first, remembering his principle as above, one which has the sanction of everything intelligent, and ye may hope for the relief ye so greatly desire.

CERTUS.

From the Boston Daily Bee.

The Indian System of the Practice of Medicine is often singularly efficient, and Dr. E. D. Spear, whom our readers and the public favorably know, is wonderfully successful in practically carrying out the system. The number that he is constantly curing or greatly aiding is very large. Frequently where others fail he succeeds. His practice is founded on nature and reason, and when these are taken as a basis, the result is generally a success. Dr. S. has remarkable success in the cure of consumption, and also in female complaints.

Those who have Failed to be cured by other Physicians, are respectfully invited to call on DR. SPEAR.
